Email: [msowoya.panji@gmail.com](mailto:msowoya.panji@gmail.com)

Computer Engineering student seeking to gain more hands-on experience. Avid learner who is willing to tackle new challenges and deliver products that make an impact. Outside programming, I enjoy running, reading novels, and listening to podcasts.

## Education

University of Livingstonia, Malawi

Bachelor of Science, Computer Engineering

*Expected Graduation: October 2021*

## Technologies

C#, C, C++, HTML5, .NET, CSS3, WordPress CMS, PHP, MySQL, Microsoft SQL Server, GIT(version control system)

## Experience

**Smartbit Consulting, Blantyre Malawi** - <https://www.smartbitconsulting.com>

**Software Programmer – Intern**

**Duration:** June - August 2019.

**Project:** Developed TMAL Desktop app- a platform for tracking cars sales and car services.

### Accomplishments:

- Designed, created and managed a relational database system to persist vehicle inventory.
- Implemented an interface to directly allow users to submit information about cars which are sold or cars which are on service therefore eliminating the need for users to go through an admin to submit this information.
- Implemented error handling and logging to reduce turnaround time for bug resolution.
- Maintained a cloud-hosted private repo on Microsoft Azure.

**Technologies:** C#, .NET framework, Microsoft SQL Server Management Studio, Microsoft Azure, Source Tree, DevExpress, Microsoft SQL Server, Visual Studio.
